

CLAIMS

What is claimed is:

1. A truck storage trunk for a truck type vehicle. The said truck storage trunk shall be positioned in the truck's bed such that it extends from the front of the said truck's bed to the center of the said truck's bed and transverses from one side of the said truck's bed to the other side of the said truck's bed and extends over each side of the said truck's bed wall until the point that said truck storage trunk structure is even with each said truck bed's outer wall.
2. The said truck storage trunk as defined in claim 1 shall be comprised of dual trunk lids wherein have individual locks. Each said trunk lid shall be accessible from a side of the said truck bed's outer wall.
3. A rubber type gasket shall be used to seal the said truck storage trunk of claim 1 to the said truck storage trunk lid when closed.
4. A solar cell shall be mounted to the center top of the said truck storage trunk structure in claim 1.
 1. The said solar cell shall be used to charge a rechargeable battery.
5. The said rechargeable battery in claim 4 shall be used to power a switch-controlled light that is mounted internal to the said truck storage trunk structure defined in claim 1.
6. A removable center partition shall be provided that will be used to divide the said truck storage trunk structure in claim 1 into two separate half compartments so that items in the said truck storage trunk in claim 1 will have a limited range of motion when the said compartment divider is installed.

7. The said compartment divider in claim 6 shall be removable so that larger objects can be placed into the said truck storage trunk defined in claim 1.
8. Dual removable tool trays shall be located in the said truck storage trunk in claim 1 and shall be located directly above the said truck's wheel housings.
